2 In lock-ups generally, rations seem to be purchased once or twice a month in the weekly bazaars. I do not know if contractors are employed to supply ~~the~~ rations in all the Lock-ups. The daily consumption is however so little that it seems unpracticable to purchase some rations every day. The proposal does not appear acceptable

Proposal, Subject to certain modifications

(1) Both of them propose the elimination of the third heading "police prisoners" under the first column "class of prisoners", for the reason that police prisoners are not under the charge of lock-up officers, who cannot therefore be held responsible for the accounts connected with the supply of rations to prisoners under police custody. In this connection the District Magistrate of Hassan states that the present system of the issue of chits by police officers to shop-keepers for the supply of rations to police prisoners, may be permitted to continue, as the only feasible method, and suggests the desirability of consulting the Inspector-General of Police as to whether a register in foil and counterfoil may not be prescribed for police stations, in order to keep a check on the issue of such chits.

(2) The District Magistrate of Kadur further offers the following

Suggestions with regard to the forms proposed by the I. G. of Prisons:—

(1) As prisoners will have to be admitted into the lockup more than once in the course of a day, the quantity of rations required for the day cannot be summed once for all. Necessary alteration should therefore be made in the footnote of the indent, and provision should be made for the issue of two indents every day, one in the morning and another in the evening

(2) Where there is no contract system, provision should be made for daily payment to Shop-Keepers.

(3) In addition to the book of indents, a printed and ruled "Diet Register" should be kept, showing the number of diets of all classes of prisoners.

15 The District Magistrate, Chitaldrug says:-

(1) Contract syster causes loss to Government to the extent of profits earned by contractor,

(2) Inconvenience to Lock-up Officer

and (3) Additional work to Lock-up Dafadar.

2. What is proposed is no elaborate Contract system involving publishing Notifications, calling for tenders &c. The Lock-up Officer should, once a year, auction off Lock-up supplies in the presence of a few respectable merchants. The acceptance of rates offered should be made subject to confirmation of the District Magistrate. A written bond, with a para therein provided for penalty for infringing contract rules, should be obtained from the accepted merchant. In this way we will have some hold upon him and prevent swindling of Government money. Of course the contractor or merchant or whoever he may be, reserves for himself a fair margin of profit which cannot be helped.

3. The 2nd and 3rd objections are untenable as public servants should not grudge a little inconvenience and extra work especially when public interest is at stake.

4. The District Magistrate, Kadur, suggests:-

(1) The exclusion of the column for "Police prisoners"
(2) The preparation of indents twice daily.
(3) Daily payment system.
(4) The introduction of a diet Register.

5. I agree to the first proposal. The column was included because Government passed definite orders to include, in the Prison Budget, all charges incurred on account of such prisoners. This Department has no control over the Police prisoners and the unfairness of the present practice has been repeatedly brought home to Government and a question on this very subject mooted by Major Brockman is pending disposal by Government.

6. It is undesirable to adopt suggestion No.2. Just as in Jails so in Lock-ups, Indents should be made after morning meals of prisoners. The indent should be for two meals, the evening and the following morning meals. Late admissions will get only ragi flour to be turned into cakes or balls, the quantity to be included in the next days indent under a foot note. Similarly in the case of prisoners released after the preparation of Indent, a proportionate reduction should be made in the next day's indent under a foot note.

7. (Suggestion No.3) It is irksome to have daily payments involving much calculation and waste of time. Respectable merchants who will supply articles at one month's credit to a Government Institution will always be available at Head Quarters of Taluks and Districts.

8. (Suggestion No.4) A book or a ledger, though not in the form proposed, must at present exist in each Lock-up. If not it is not clear how they prepare monthly accounts now.

9. The District Magistrate Hassan has only one modification to make, viz, the elimination of the column for "Police prisoners" and my views on this are contained in para 5 above.

10. In conclusion, I am of opinion that the form proposed may be introduced into all Lock-ups with advantage as it would tend to prevent curruption through the connivance of Lock-up servants with outside merchants and vice versa.

There are two points raised in the correspondence connected with the Police Department .-

(1) Whether Police prisoners should be included in the Lock-up indent.

(2) Whether a form similar to the one proposed by the Inspector General of Prisons should be maintained in all Police Stations and Outposts for the rations supplied to prisoners in Police Lock-ups.

1. The District Magistrates of Kadur and Hassan suggest that the column for Police prisoners should be excluded from the indent as Police Officers have

often to provide rations at Police Sub Stations and Outposts away from Taluk Head Quarters. I do not agree with them but would suggest their being included as the same form may be adopted for Police Stations and Outposts.

2. As regards point 2, the practice obtaining at present is that Police officers in charge of Stations are given an imprest from lock-up contingencies for which they render account to the Lock-up Officer at the end of each month. No systematic indent appears to be prepared for the diet of prisoners each day but the amount prescribed per head is given to a shop-keeper or other person for the supply of food or rations to the prisoner.

To carry on the work in a more systematic way it is necessary that an indent somewhat like the form proposed by the Inspector General of Prisons should be prescribed for all Police Stations. To save the cost of printing separate forms, I would suggest the adoption of the same form bound in books for supply to all Stations. The counterfoil may be given to the shop-keeper and payments made monthly or daily according to circumstances and the counterfoils taken back from the party with his receipt thereon and attached to the original. The monthly account may then be conveniently prepared and submitted to the

Copy Letter No. 1 052/P 135 dated the 12th September 1908 to the Secretary to Govt. from the Inspector General of Prisons in Mysore, ~~proposing to~~ General & Rev. Sect. Bangalore ~~introduce indent forms into all the Lock-ups of the State to make entries of rations issued for the use of prisoners by contractors in accordance with the orders of a Lock-up Officer.~~

A case is now before me in which a certain official is reported to have misappropriated articles of rations intended for the benefit of prisoners. To prevent the recurrence of such abuses and at the instance of the District Magistrate, Mysore I have the honour to propose the introduction into all lock-ups of the State printed forms of indent for the ration articles required for each day. The form (vide enclosure is simple and similar to the one now being used in the two Jails of the Province under section 534 of the Mysore Jail Manual. It will be in duplicate perforated in the middle like a cheque book. The necessary entries therein will be made by the Lock-up Officer who retains the original in his possession and issues the duplicate to the shop-keeper or contractor for the supply of the articles mentioned therein. The shop-keeper supplies the articles ~~mentioned-therein.~~ and obtains on the form given to him the signature of the Lock-up officer with the remark that everything has been supplied. At the end of the month, these

duplicates will be produced before the Lock-up officer with a bill who will check them with the originals in his possession and then make payment for the total value of articles supplied.

3. If this proposal meets with the approval of Government I request that printed forms bound into 1000 books of 100 pages each may be kindly caused to be supplied to me.

Order thereon:-No. Dated Bangalore, September 1908

With a view to prevent the misappropriation of the articles of rations intended for the prisoners confined in the Lock-ups in the State, the Inspector General of Prisons suggests the introduction of a form of indent for the articles required for each day as appended.

All the District Magistrates are in favour of the form

of indent proposed. But the District Magistrates of Kadur and Hassan suggest the elimination of the column relating to the "Police" or Under-trial prisoners from the proposed form and the Inspector General of Prisons agrees with them. But as it has since been directed that the diet charges of Police Prisoners should be debited to the Jail Department, Government are pleased to direct that the form as proposed by the Inspector General of Prisons be introduced in all the Jails and Lock-ups with effect from the 1st January 1909.

Government also approve of the recommendation of the Inspector General of Police to introduce similar forms into all the Police Stations and Ukkads.

The Superintendent of the Government Press is requested to have the required number of the forms printed and supplied to the Inspector General of Police and the Deputy Commissioners on their requisition.

SIR

I have the honor to state that the Lock-up Officer of Chamarajanagar proposes the introduction of a printed form in duplicate (herewith forwarded) for the supply of rations to the several classes of prisoners admitted into the Lock-up. The form is a simple one and acts as a safe-guard against mis-appropriation of articles by either the guards of prisoners or the Shop-keeper. The necessary entries will be made by the Lock-up Officer in both the forms (original and duplicate) and the duplicate will be issued to the Shop-keeper to supply the articles and the signature of the guards

guards obtained on the same with the remark that all the articles have been supplied to them the shop keeper will produce the duplicates once a week or fortnight or a month (to be fixed by the lock-up officer) to the lock-up officer who will check the same with the original and order payment for the total value of the articles supplied. This procedure may be adopted in all the lock-ups uniformly. As the proposal seems to be a simple, practicable and a safe one, I recommend it for your favourable consideration, and if approved, I request that printed forms may be supplied in books of 100 pages each to all the lock-ups.

Sir,

With reference to your letter No. J.937-44/Pris.29-07-2 dated the 25th September 1907, requesting my opinion as to the introduction of printed forms of indents for the issue of rations for the use of Lock-ups as proposed by the Inspector General of Prisons, I have the honor to state that such forms may with advantage be adopted, as I was myself contemplating asking for some such check, having been impressed during my last year's inspections with the laxity that prevailed in the matter of keeping Lock-up ration accounts in particular.

I have the honor to be,
Sir,
Your most obedient servant,

District Magistrate,

Sir,

With reference to your letter No. J 937-44/Pris No. 29072 dated, 25th September 1907, forwarding copy of letter No. 1052-133 dated 13th September 1907 from the Inspector General of Prisons together with a copy of the indent form and calling for my opinion in re its introduction into the several Lockups of the State, I have the honor to state as follows:-

2. Out of the nine Lockup officers in the District, all with the exception of the District Lockup-officer are in favor of the proposal.

3. The District Lock-up officer strongly supports the Continuance of the existing system of supplies of rations to the prisoners in his Lock-up, and argues that Contract system would cause loss to Government to the extent of the profits earned by the contractor, amounting nearly

to

to Rs 100/- per annum.

4. He reports further that the proposed system cannot work satisfactorily in the District Lockup by reason of his not being able to attend the Lock-up always for attesting the certificates of receipts of articles upon indents issued on the Contractor from time to time as prisoners are admitted from morning till evening.

5. As the proposed system is practically in force in all the other Lockups in the District, except in the District Lock up, I am of opinion there will be no difficulty in adopting the new form. However, as remarked by the District Lockup Officer, there will be the additional work thrown on the Daffedar and extra cost to the State, as the shop-keeper will certainly charge some profit over the cost of the articles supplied.

I have the honor to be

Sir,

Your most obedient Servant

Dated Chikmagalur

Sir,

In reply to your letter No. J 937-44/Priv 29-07-2 dated 25th September last, calling for my opinion as to the suitability of the proposals made by the Inspector General of Prisons regarding the introduction of printed forms of indent for the issue of rations for the use of Lock-ups, I have the honor to state that, as proposed by the Inspector General, printed forms of indent may be introduced with advantage into all Lock-ups.

2. But in my opinion the form needs

to

to be modified as follows:-

(a) Since Police prisoners are not under the charge of Lock-up officers, but under the charge of Police Officers, the words "Police prisoners may be excluded from the form.

(b) As the quantity of the rations articles required for each day cannot be ascertained once for all, as prisoners may often happen to be admitted into the Lock-up more than once in the course of a day necessary alterations should be made in the foot note of the indent and provision should be made for the issue of two indents every day, one in the morning for the articles required for the number of prisoners minus those released every morning, and the other in the evening for the articles required for the number of prisoners admitted in the course of the day.

3. As payment to Shop-keepers cannot be withheld till the end of the month in the case of Lock-ups where no contract system prevails, provision should

should be made for daily payment to such shop-keepers.

4. The District Lock-up Officer a Chikmagalur proposes that in addition to the book of indents, a printed and ruled "Diet Register" in the enclosed form should be kept. I agree with his proposal.

Sir,

Adverting to your letter No J 937-46
Pris 29-07—2

dated 25th September (07), forwarding copy of letter No 1052/133 dated 12th idem with its enclosed form received from the Inspector General of Prisons proposing the introduction of such printed form of instructions for the use of lock ups, I have the honour to state that the introduction of this printed form

- seems

Lecess very desirable, but presumably
it can be made use of only by Lock-up
officers concerning rations for convicts
and undertrial prisoners under their
control, and not concerning Police
prisoners for whom Police officers
have often to provide rations at Police
Sub Stations and out-posts away
from Taluk Head quarters. Hence
it would be preferrable to leave to
the Amildars and Police Inspectors
the control of supply of rations to
Police prisoners both at Taluk Head
Quarters and at Sub Stations and out-posts
unconnected with Lock-up officers,
who cannot be held responsible for
the accounts connected with the supply
of rations to Police prisoners under
such circumstances. ——————

——→ It is for this reason separate

Imprest

Impreado for supply of rations to
prisoners are alloted to Taluk Lockup
officers and Taluk Police Inspector.

2 I would therefore suggest
the elimination of the third heading
referring to Police prisoners under the
first column of the specimen form
received with your letter under reply
the present system of issue of chits
by Police officers to shop keepers for
the supply of rations to prisoners in
Police custody being permitted to
continue as the only feasible method.
But with a view to keep a check on
the issue of such chits, it may be
desirable to consult the Inspector General
of Police as to whether a Register in foil
and counterfoil may not be prescribed for
each Police Head-Station and Sub Station.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Prisons), dated 19th September 1908.

READ—

Letter No. 1052—F. 133, dated the 12th September 1907, from the Inspector-General of Prisons in Mysore, proposing to introduce indent forms into all the Lock-ups of the State to make entries of rations issued for the use of prisoners by contractors in accordance with the orders of a Lock-up Officer·

A case is now before me in which a certain official is reported to have misappropriated articles of rations intended for the benefit of prisoners. To prevent the recurrence of such abuses and at the instance of the District Magistrate of Mysore, I have the honour to propose the introduction into all Lock-ups of the State printed forms of indent for the ration articles required for each day. The form is simple and similar to the one now being used in the two Jails of the Province, under Section 534 of the Mysore Jail Manual. It will be in duplicate perforated in the middle like a cheque book. The necessary entries therein will be made by the Lock-up Officer, who retains the original in his possession and issues the duplicate to the shop-keeper or contractor for the supply of the articles mentioned therein. The shop-keeper supplies the articles and obtains on the form given to him the signature of the Lock-up officer with the remark that everything has been supplied. At the end of the month, these duplicates will be produced before the Lock-up Officer with a bill, who will check them with the originals in his possession and then make payment for the total value of articles supplied.

(2) If this proposal meets with the approval of Government, I request that printed forms bound into 1,000 books of 100 pages each, may be kindly caused to be supplied to me."
